**FOR IMMEDIATE RELEASE**

**QFX, INC. - VERNON, CA – SEPTEMBER 20, 2016**

QFX, Inc. is very pleased to announce the introduction of exciting new products for 2017. All of these new products will be formally introduced at the January 2017 CES in Las Vegas and will be delivered to our customers during the first quarter.

QFX will be introducing three other Bluetooth Speakers for the Home Entertainment Series: the BT-5000, the BT-8000, and the BT-9500.

The BT-5000 Home Entertainment speaker with Optical Input comes complete with Bluetooth compatibility, USB/SD/MMC inputs, MP3 playback, AUX input, and stereo RCA jack input. It also boasts super bass sound through two channel speakers with 2x6.5" bass speakers, 4x3" mid-range speakers, and 2x1" tweeter speakers. Includes 6 ft. optical cable. Suggested retail price is set at \$149.99.

The BT-8000 Tower speakers come complete with Bluetooth compatibility; FM radio; USB/SD card; USB player with remote control; AUX/RCA input, and microphone input. It also boasts super bass sound through two channel speakers with 2x8" woofers. Includes RCA to 3.5mm cable to play music from most portable devices, as well as a bonus optical cable. Suggested retail price is set at \$299.99.

The BT-9500 Home Entertainment Tower Speakers with Optical Input come complete with Bluetooth compatibility; FM radio; USB/SD card; USB player with remote control; AUX/RCA input, and microphone input. It has super bass sound, two channel speakers, and 4x10" woofers. Includes RCA to 3.5mm cable to play music from most portable devices, bonus optical cable and AC 120/240V 50/60Hz. Suggested retail price is set at \$599.99.

QFX will also be introducing a new speaker for the Elite Series- WiFi Speakers: The E-400 Mozart Multi-Room WiFi and Bluetooth speaker. The E-400 has Bluetooth compatibility; allowing music to be streamed wirelessly from music libraries such as Spotify, Pandora, GoogleCast, iHeartRadio, etc. Control your music with the free QFX Tunes app on your phone, tablet, or computer. With 2x3" full range speakers and 2x1" tweeters + bass tube, the speaker connects to WiFi and can expand to as many as six different speakers in individual rooms. Includes USB input, line-in input, and 3.5mm headphone jack. Includes user manual, 3.5mm audio cable, and power adapter. Suggested retail price is set at \$299.99.

QFX will be introducing two new speakers for the Elite Series- PA Speakers: the E-B52 High-Powered speaker and the E-F15 High Powered Pro PA Speaker.

The E-B52 speaker has Bluetooth compatibility; FM radio; USB/SD card; USB player with remote control; RCA/XLR input, and microphone input. The recording function allows you to record from the microphone, radio and RCA. The unit comes with 2x15" woofers, handle bar and wheels, and DC 12V input. Suggested retail price is set at \$499.99.

The E-F15 speaker has Bluetooth compatibility; FM radio; USB/SD card; USB player with remote control; AUX/RCA/XLR input, and microphone input. The recording function allows you to record from the microphone, radio and RCA. The unit comes with built-in Class-D amplifier, 15" woofer, 1" tweeter, handle bar and wheels, and DC 12V input. Suggested retail price is set at \$399.99.

QFX is thrilled to introduce a new item in the headphones category: the H-600NC Noise-Cancelling Headphones. The H-600NC comes with a detachable 1.5M cable with a 3.5mm Stereo plug, travel pouch, aircraft adapter, and USB charging cable. Suggested retail price is set at \$59.99.

QFX will also be adding two new speakers for the Party Speakers series, in the Battery Powered Party Speakers category: the PBX-90710 6.5" Portable Party PA System/Boom Box and the PBX-7 Outbacker Portable Party Speaker.

The PBX-90710 has Bluetooth compatibility; FM radio; USB/SD card; remote control; RCA input, and dual microphone input with Echo Control. The 6.5" woofer and dual 3" tweeters feature treble control and bass control. Includes LED display, LED disco lights, and rechargeable battery. The unit comes in black or red. Suggested retail price is set at \$99.99.

The PBX-7 has Bluetooth compatibility; FM radio; USB input; remote control; RCA input, line-in, and dual microphone input. It features 6.5" woofer with high pitch, LED light, rechargeable lithium battery, and AC/CUL Adapter. Weather-resistant. Suggested retail price is set at \$99.99.

QFX will be expanding its assortment with two new speakers for the Pro Audio Speakers – PA Speakers series: the SBX-1533 High Powered Pro PA Speaker and the SBX-51021 "Smart" Prosumer Karaoke Speaker System.

The SBX-1533 is a two-way steel-framed plastic cabinet speaker with built-in amplifier. It comes with wireless microphone input, Bluetooth streaming, FM Radio, and USB/SD input plus recording. The unit blasts music through a 15" woofer complete with equalizer. Includes tripod stand; 3.5mm Male to two RCA cable; professional XLR line; dual XLR3 microphone connectors; ¼" microphone connector, handle bars; wheels. Suggested retail price is set at \$249.99.

The SBX-51021 has wireless microphone input, Bluetooth streaming, FM Radio, and USB/SD input, USB charging capability, guitar input, and dual microphone input. The unit blasts music through 2x10" woofers and 2x4" horns, complete with 5 band equalizer. Other features include wireless dynamic microphone, dual LED and RGB lights, handle and wheels. Suggested retail price is set at \$399.99.
